

Monday September 9th, 2019

In the morning, our exchange partners brought us to school at 8 o'clock. We waited, like every morning, at the entrance of the school for a teacher who would guide us to the class, where we had our lessons. The first lesson started at 8:15. On this day, we had two English lessons at first. There we met the Hungarian students, we introduced ourselves and told something about Germany. Then all of us sang a song from Sarah Connor and made some grammar exercises. The Hungarian students, who were at age of 17 to 19, were very kind and we had a lot of fun with them. The second lesson was Maths in German. They talked about "Rationale Zahlen". After that we had a history lesson with the topic „middle ages“, also with students who learn German. The last lesson we had was German with students of about our age like 15/16. After the school lessons, the Hungarian students were in the canteen for lunch and after they had finished eating, we went to the canteen at 12:15 and ate something like noodles, lasagna, soup, ham, vegetables and so on.

After lunch we went to the suburban railway station for taking line 51 to "Boráros Ter". From there we caught the 2. We had to step out after 4 stations, but a few of us thought of driving one station more than the others. That was very funny, because the others had to wait. We made many jokes about it! Then we walked over the Szechenyi Bridge that is also called Chain Bridge, but unfortunately, it started to rain after a few meters. We ran over the bridge as fast as possible, but still, our clothes were totally wet because of the fast weather changing. Because of this we couldn't do the treasure hunt that was prepared for us. We went to the mountain top for looking around on a shuttle bus. There we made a few pictures. Because of our wet clothes, we decided to drink a hot chocolate in a cafe. After that the shuttle was taking us down and we walked again over the Chain Bridge, back to the suburban railway station. At Boráros Ter, our exchange students picked us up, for going home. We all were very tired, and after dinner and a shower we fell asleep very quickly. That was our first day in Budapest!

And we liked it very much, even it was raining.
